Statement of Intent

This policy is intended to ensure students at Harrogate High School are protected while using digital technologies at the school.

The school is committed to including digital technologies, in particular internet use, in our curriculum. In doing so, we recognise the inherent risks posed by this useful learning tool. Full compliance with this policy will mitigate these risks and help to ensure students are safe online.

1. Introduction

- 1.1. While digital technology and the internet provide an exciting opportunity for students to learn and interact with various subjects, they also pose a risk, with the potential for exposure to inappropriate content and inappropriate contact from other children and adults. Digital technology also provides an opportunity for students to engage in unacceptable behaviour, both online and offline.
- 1.2. In order to keep students safe online, and for them to learn how to keep themselves safe online, all students and teachers should be aware of relevant skills and strategies needed to ensure internet safety. This ranges from knowing to only use the internet with adult supervision for younger students, to strategies for identifying appropriate links for older children.
- 1.3. Mitigating the risk to students created by digital technology and the internet will be ensured through specific safety lessons and will also be embedded within the general curriculum.
- 1.4. E-safety will depend on policies being properly implemented at all levels of the school community: from published policies, to a secure school network design, the effective management of school broadband and filtering systems, parental awareness of the dangers of online use and effective teaching about digital-technology use.
- 1.5. This policy is to work in conjunction with our Safeguarding and Child Protection Policy.

2. Aims

- 2.1. At Harrogate High School, we are committed to using the internet and other digital technologies to:
 - Make learning more exciting and interactive.
 - Make lessons more varied.
 - Enable students to gain access to a wide variety of knowledge in a safe way.
 - Raise educational standards.
 - Prepare our students for using the internet safely outside of school and throughout their education.

3. Definition

- 3.1. Digital safety encompasses a number of technologies such as computers, tablet computers, collaboration tools, internet technologies and mobile devices.

4. E-safety measures

- 4.1. The school's internet system, and access to it, is specifically designed for staff and student use and, as such, includes filtering appropriate for secondary age children.
- 4.2. Students will have clear objectives about why they are using the internet whenever the internet is incorporated into lessons.
- 4.3. Lessons using the internet will be carefully planned and the 'access levels' classes and students are afforded will be fully considered, taking into account student age and curriculum requirements.
- 4.4. Children using the internet will do so in classrooms (or other appropriate shared areas of the school) during lesson time only and with teacher supervision. Students who use the internet in independent learning club will be supervised.
- 4.5. Students will be taught what internet use is acceptable and unacceptable, and teachers should be vigilant during internet based lessons.
- 4.6. Particular vigilance is necessary if and when students are undertaking internet searching. Teachers should use their professional judgement regarding whether this internet function is appropriate for the relevant class.
- 4.7. If the Google images website is used in class, this should be done using the 'safe search' function. Teachers can make judgement calls on whether to allow the use of Google images at all, due to the range of content and possibility for accessing inappropriate material.
- 4.8. Records will be maintained detailing all staff and students who have internet access.

5. School policies

- 5.1. Information system security:
 - 5.1.1. Harrogate High School uses Virgin Media Broadband with a smoothwall, firewall and a filtered access system.
 - 5.1.2. The security of the information systems and ICT system capacity will be reviewed regularly.
 - 5.1.3. The virus protection will be regularly updated. There will be procedures in place for virus protection to be updated on any laptops used by staff members or students.
- 5.2. Email and digital communications:
 - 5.2.1. Only approved school e-mail accounts may be used at school/via the school network. Additionally, students must not receive or access personal e-mail accounts.

5.2.2. Students should notify a teacher immediately if they receive an offensive e-mail.

5.2.3. Students should be taught about the dangers involved in e-mail communications. They should be taught:

- Not to reveal personal details about themselves or others in e-mail or digital communication. This will generally include full names, addresses, mobile or landline phone numbers, school name, instant messenger (IM) address, e-mail address, names of friends, specific interests and clubs etc.
- Never to arrange to meet someone they have 'met' via e-mail/online without appropriate safeguarding measures (e.g. the presence of a parent or responsible adult).
- That online communications are 'real' and as such require the same respect for others as face-to-face interactions.

5.2.4. Parents and students alike will be informed through Safeguarding on the VLE and website of the risks inherent in using social media. Social media websites will not be accessible through the school's network and should not be accessed on school devices through other networks.

5.2.5. The school's CEOPs Ambassador, Karen Naylor will maintain a list of 'inappropriate' and 'banned' terms. The use of these in e-mails will be detected and logged.

5.2.6. Whenever staff or students send e-mails to organisations or persons outside of the school, these should be authorised in the same way official school correspondence would be.

5.3. The school website:

5.3.1. The Executive Principal has overall responsibility for the content of the school website. This includes ensuring all content is appropriate and accurate. There are procedures in place for authorising the uploading of any content onto the school's website.

5.3.2. No personal information or contact details will be published on the school's website. This extends to the use of student's full names. The school address, e-mail and main telephone number should be the only contact information available to website visitors.

5.3.3. The uploading of any images or photographs of students onto the school website requires parental permission in writing. Any images should be carefully chosen with safeguarding in mind and it is advisable that students are not easily identifiable in images. Student's names should never be used in conjunction with their photograph on the website.

5.4. Managing filtering:

- 5.4.1. The Network Manager will work to ensure filtering systems are appropriate, efficient and as effective as possible. This will entail regular checks and ongoing monitoring.
- 5.4.2. If staff or students discover unsuitable sites, the URL, time and date must be reported to the Network Manager. There are processes in place to deal with such reports.

5.5. Protecting personal data:

- 5.5.1. Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998.

5.6. Complaints:

- 5.6.1. Complaints regarding student misuse of the school's internet/digital devices will be dealt with by the Network Manager and an appropriate, senior member of staff. Sanctions for misuse may include:

- Revocation of internet use privileges
- Communication with the student's parents/carers
- Detention or other usual discipline methods

- 5.6.2. Staff misuse of the internet or digital technology should be referred to the Executive Principal.

- 5.6.3. Any issues or complaints of a child protection nature should be dealt with according to the school's Child Protection and Safeguarding Policy procedure.

- 5.6.4. Information on the complaints procedure should be published on the school's website and parents should be informed about this.

5.7. Digital technology/internet use outside of school:

- 5.7.1. Parents should be informed of the inherent risks of internet use.
- 5.7.2. The school will be aware of, and responsive to, any issues students experience via their use of the internet or digital technology outside of school. The school's E-Safety Policy may also be relevant in such instances.

5.8 Social Media:

- Social media will be used to share information with parents and link to the VLE
- The school communication lead will oversee communications
- All tweets will be made by Stuart Hutchinson
- All Facebook posts will be made by Stuart Hutchinson
- Any inappropriate comments or activity by parents or other persons will be dealt with in the same manner as if it was face-to-face. Any inappropriate activity by members of school staff will be dealt with in accordance with the staff code of conduct policy
- The uploading of any images/videos of students onto Social Media pages requires parental permission in writing. Any images/videos should be carefully chosen with safeguarding in mind and it is advisable that students are not easily identifiable in images. Student's names should never be used in conjunction with their photograph on the website.

6. Monitoring

6.1. The law related to internet use is changing rapidly and staff and students need to be aware of this. Relevant laws include:

- The Computer Misuse Act 1990
- The Public Order Act 1986
- The Communications Act 2003
- The Sexual Offences Act 2003
- The Malicious Communications Act 1988
- The Copyright, Design and Patents Act 1988
- The Protection of Children Act 1978
- The Obscene Publications Act 1959 and 1964
- The Protection from Harassment Act 1997

6.2. This policy should be monitored and updated to account for changes in the legal landscape, such as amendments to the outlined laws. Sue Wilkinson is responsible for updating this policy and ensuring the school remains in compliance with its legal obligations.
