

3 March 2020

Dear Parent(s)/Carer(s)

We write to you to inform you of our commitment to good hygiene and preventing the spread of infections within Harrogate High School.

We will be introducing 10 hand sanitising dispensers around school containing Alcohol Gel Hand Rub. Students and staff will be encouraged to use them at regular intervals and perform effective hand hygiene.

If your child has a skin complaint or health condition which means they are unable to use this hand sanitiser, we ask that you provide a suitable alternative to be used in school.

Thank you for your support in this matter.
