28th September 2023

Dear Parents/Carers

As Harrogate High School we are committed to ensuring all our students reach their full potential, make progress and achieve.

In order to support this commitment, we have invested in an online program called Method Maths to help students make accelerated progress in Mathematics.

This program allows students to access and complete exam papers online (smartphone, smart tablet, laptop, PC).

Questions are marked as soon as students input an answer, providing instant feedback. Students will also be able to see the grade they have achieved and how many more marks they need to secure to achieve the next grade.

The program will also allow subject specialist teachers identify gaps in student knowledge which can then be addressed in class and in the after school Extra Study Sessions which run every Wednesday after school from 2.30pm – 3.30pm.

Please note that this extra resource is in addition to the SPARX maths homework that students receive weekly. SPARX is used primarily to consolidate learning in the classroom, whereas Method Maths will be used to build student confidence and familiarise them with the type/level of questions that they will be presented with in their actual examinations in the summer.

The expectation is that students attempt one paper a week (which will be unlocked by their teacher).

We believe that the sooner students are targeted and given support the greater the chances of them being able to make the progress needed to ensure they fulfil their potential.

You will be able to monitor your child's engagement and progress by viewing the overview screen when your child logs into Method Maths.

Ainsty Road, Harrogate, North Yorkshire, HG1 4AP
