

May 2021

Dear Parent/Carer

We are determined as a school to ensure that every student in each year group maximises his or her potential. On a regular basis we analyse student performance. Where we feel additional support would be of benefit, we look to employ a range of strategies to support student success. Through analysing recent assessments and in school data, it is apparent that your child would benefit from some additional support in Maths. I am pleased to say that your child is being invited to attend small group interventions to support their progress delivered by the mathematics team to help to plug any gaps in their understanding. Our view is that this small group setting will enable students to freely ask questions and work through personalised tasks to clarify any misunderstanding to then put into practice in their lessons.

Your child will need to attend their maths classroom from 2:30 to 3:30 on the following dates to access this additional maths support.

Monday 14th June  
Monday 21st June  
Monday 28th June  
Monday 5th July  
Monday 12th July  
Monday 19th July

Due to the limited number of places, we have for this support, we will be unable to keep their place open should they not attend regularly, as other students are on a waiting list.

If you have any queries, please do not hesitate to contact us.

Thank you in advance for your support.

Yours faithfully

**Mrs L Greenwood**  
Head of School
