

Pupils Must Stay at Home:

If they or any one person at home has **any** COVID symptoms – even if an LFD test is negative.

ACTION: Symptomatic person - Book a PCR test.

If they or any one person in the household receives a positive LFD test result – the individual should get a PCR test to confirm the result.

ACTION: All of the household must isolate for 10 days unless the PCR result is negative.

For the full isolation period if any one person in the household has had a positive PCR test.

ACTION: If anyone in the household develops symptoms, get a PCR test.

Upon return from travelling to an amber and red list country.

ACTION: Quarantine in line with government guidance.

If they have been in close contact with someone who has tested positive (in the 48 hours before their positive result).

ACTION: Isolate for 10 days after the last contact with the individual.

Get in touch with the school immediately.

Together we can take swift action to keep our children in school.
